Response to Amendment

Applicants' amendment filed on December 08, 2004 has been entered on January 20, 2004.

Therefore claims 1 to 18 and 20 as recited in the amendment are currently pending in the Application.

Claim 19 was previously cancelled.

Reasons for allowance

Claims 1-18 and 20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include the step of nitriding an upper surface of the lower electrode in an NH_3 atmosphere before forming a first amorphous TaON thin film as recited in independent claims 1 and 20 . (also described in Applicants' specification page 9 lines 13-17).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
